*halogen fog lights
and driving lights*

modern design

watertightness IP65

universal application

Construction and parameters

Application

To be mounted on front parts of cars or trucks.
Designed especially for cars with small bumper cavities.

General information

All metal parts are galvanized with a generous zinc coating to ensure corrosion resistance.
The metallic coating is treated with silicone varnish and silicon for protection.

Detailed information

Construction:

- metal reflector
- black plastic housing
- glass lens
- mounting bracket
- wiring with seal, tipped with F2,5 and A2,5 terminals
- bulb (optional)

Lens colour

Halogen lights are manufactured with clear or amber lens.

Additional features

Compact and attractive design.
Mounting and adjustment system permits easy and accurate 3D aiming.

Bulbs

Fit bulb type:
H3 12V 55W or H3 24V 70W

Additional equipment

Some versions come with a full lens cover (cat. number A.37901) or with a stone guard (cat. number A.37900), which emphasize styling, extend working life and protect from accidental damage.

Parameters

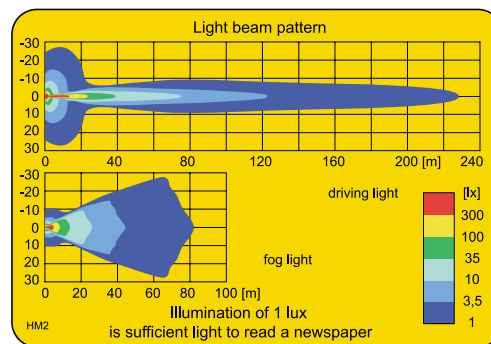

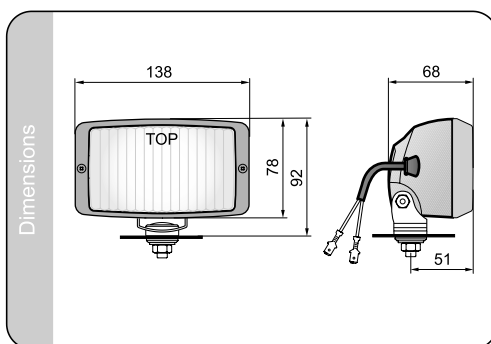

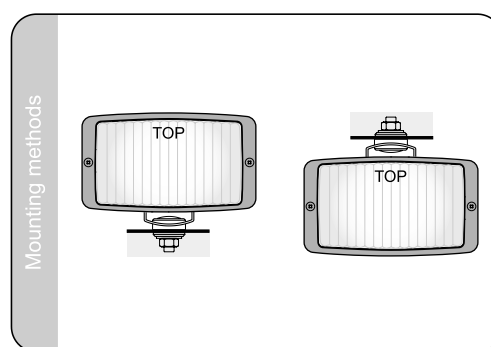

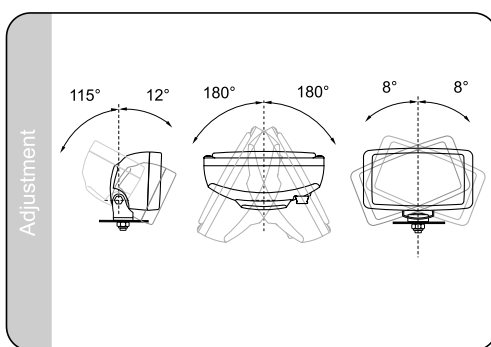

Watertightness IP65.
The driving light guide number which specifies the light's maximum candle power is 12,5 (it is about 60 lx within distance of 25 m).

Mounting methods

Can be mounted on a vehicle as vertically standing or pendent mounting.
